

## ENVIRONMENTAL POLICY

Revised On 27 September 2022

Revision Number 04e

African Mining and Crushing, in providing mining and crushing services, understands how necessary it is to preserve our environment and approach each project with long-term sustainability in mind. We do not only believe site rehabilitation to be necessary, but constantly plan and scrutinize every new and existing project in order to minimize the impact that our activities have on the environment. We believe that this is an area where we have to be proactive and lead the industry by example.

Our commitment to environmental preservation includes:

- Ensure compliance with environmental legislation and other requirements guiding responsible practice.
- Continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.
- Continually assess and minimize the impact that our plants and equipment have on the environment and the communities in which they operate.
- Make both clients and suppliers aware of the environmental policy by which we operate and would urge them to do the same for sustainable growth and the well-being of future generations.
- Committing ourselves to the minimization of pollution.
- Ensure comprehensive environmental planning and costing for operational and closure phases are undertaken and that the financial provisions are included in budget plans.
- Investigate the root causes of all environmental impacts and aspects, to ensure appropriate corrective actions are implemented so as to prevent environmental degradation.
- Communication, training and development of employees in order to develop awareness of environmental legislation.
- Actively promote the 6 R's of Environmental Sustainability – Respect – Rethink – Reduce – Reuse – Recycle – Restore

This policy shall be reviewed regularly to ensure relevance and appropriateness. The policy shall be made available to all interested and affected parties.
